User 3: Executive Dashboard (DG / HoD / Division Managers)	7

User 1: Inspectors

Dashboard Section	Purpose	KPIs / Visualizations
Workload Summary	Monitor the inspector's assigned workload and progress.	KPI Cards: Total Assigned Inspections, Pending Inspections, Completed Inspections
Inspection Progress	Track inspection progress over the selected reporting period.	Donut Chart: Completed vs Pending Inspections Line Chart: Inspection Trend (Daily/Weekly/Monthly)
Assigned Facilities	View facilities assigned to the inspector and their current status.	Table: Facility Name, Facility Classification, District, Registration Status
Compliance Summary	Monitor compliance outcomes across inspected facilities.	KPI: Average Compliance Score (%) Bar Chart: Inspection Outcomes (Approved, Corrective Action Required, Rejected) (<i>subject to agreed decision categories</i>)
Inspection Activities	Summarize inspection activities for the inspector's assigned service.	Examples: • Seed Inspectors: Fields Inspected by Crop, Crop Quality Assessment • Agrochemical Inspectors: Premises Inspected by Dealer Category, Licensing Outcomes • Slaughterhouse Inspectors: Slaughterhouses Inspected by Classification (Small/Medium/Large), Inspection Outcomes • Butchery Inspectors: Butcheries Inspected and Inspection Outcomes • Meat Carrier Inspectors: Vehicles Inspected and Inspection Outcomes
Sampling Activities (where applicable)	Summarize sampling activities for services that include sample collection.	Examples: • Seed Inspectors: Samples Collected by Crop and Variety • Additional service-specific sampling metrics where applicable.
Future Modules (Pending Clarification)	Placeholder for forms that require further discussion before dashboard design.	Controlled Plot, Seed Sampling Report, Bean Data Collection Sheet

User 2: Directors

Common Components Across All Director Dashboards

These components apply to **all Director Dashboards** and display information **only for the Director's assigned unit**.

Dashboard Section	Management Question	KPIs / Visualizations
Team Performance & Workload	How is my unit's team performing?	Table: Assigned Tasks, Completed Tasks, Pending Tasks by Inspector Bar Chart: Workload Distribution by Inspector Line Chart: Unit Completion Trend
Regulatory Outcomes	What are the outcomes of activities carried out by my unit?	Donut/Bar Chart: Approval vs Rejection vs Corrective Action (<i>where applicable</i>) Bar Chart: Outcomes by Province/District Category Breakdown: Outcomes by the unit's regulatory streams or service categories
Performance Trends	How is my unit performing over time?	Line Chart: Monthly Trend of the unit's key performance indicators Year-on-Year / Seasonal Comparison (<i>where historical data exists</i>)

Note: These components are common across all Director Dashboards. The data displayed is filtered to the Director's assigned unit.

Unit-Specific Components

1. Farm Products & Processes Inspection Unit

Filters: Date Range, Regulatory Stream, Province, District

Regulatory Stream	Management Question	KPIs / Visualizations
Seed Inspection & Certification	How is the seed certification process performing?	KPI Cards: Applications Submitted, Approval Rate, Pending Applications, Declaration Review Pass Rate, Average Sample Test Turnaround Time* Filters: District (applies to all metrics)

Slaughterhouse Inspection	What is the compliance status of slaughterhouses?	KPI Card: Unit Compliance Rate Bar Chart: Compliance by Facility Size (Small, Medium, Large) Donut Chart: Registration Status Distribution (Registered, Pending Application, Informal/Unregistered) Donut/Bar Chart: Overall Inspection Decision Distribution (Approved, Corrective Action, Rejected) KPI: Meat Carrier Compliance Rate Map/Bar Chart: Slaughterhouse Distribution by Province/District
Agrochemical Dealership Licensing	How are agrochemical licensing applications performing?	KPI Card: Application Pass Rate Bar Chart: Dealer Category Mix (Importer, Exporter, Retailer, Distributor, Manufacturer) Bar Chart: Product Category Mix (Fertilizers, Pesticides, Seeds, Veterinary Drugs, Animal Feeds, etc.)
Seed Producer Onsite Verification	What is the status of onsite verification for seed producers?	KPI Card: Verification Pass Rate Bar Chart: Land Area Under Verified Production (by Crop) KPI Card: Storage Facility Adequacy Rate Donut Chart: Land Tenure Mix (Owned vs Leased/Rented)

2. Registration & Licensing Unit

Filters: Date Range, Regulatory Stream, Province, District

Dashboard Section	Management Question	KPIs / Visualizations
Licensing Overview	What is the current status of licensing activities?	KPI Cards: Total Licensed Operators, Applications Received, Approval Rate, Average Processing Turnaround Time
Application Trends	How is demand for licensing changing over time?	Line Chart: Applications Received Over Time
Application Types	Are applications primarily new registrations or renewals?	Donut Chart: First-time vs Renewal Applications (Received) Donut Chart: First-time vs Renewal Applications (Approved)
Licensed Operators	How are licensed operators distributed across regulated categories?	Bar Chart: Licensed Operators by Category (Seed Producers, Agrochemical Dealers, Butcheries, Meat Carriers, Used Electronics, etc.)

Geographic Distribution	Where are licensed operators located?	Choropleth Map: Licensed Operators by District Bar Chart: Licensed Operators by Province
Licensing Outcomes	How are licensing decisions distributed across regulated categories?	Grouped Bar Chart: Approval Rate by Category

3. Industries & Market Surveillance Unit

Note: *At the time of this review, no inspection forms or operational datasets had been shared for this unit.*

Filters: *To be confirmed following requirements gathering.*

Dashboard Section	Management Question	KPIs / Visualizations
E.g Market Surveillance	How is the unit performing?	<i>To be defined following review of business processes, inspection forms and available datasets.</i>

4. Import Inspection Unit

Note: *No operational forms or inspection datasets have been reviewed for this unit.*

Filters: *To be confirmed following requirements gathering.*

Dashboard Section	Management Question	KPIs / Visualizations
E.g Import Inspection Overview	How is the unit performing?	<i>To be defined following review of business processes, inspection forms and available datasets.</i>

5. Competition & Consumer Protection Unit

Note: *No operational forms or inspection datasets have been reviewed for this unit.*

Filters: *To be confirmed following requirements gathering.*

Dashboard Section	Management Question	KPIs / Visualizations
E.g, Consumer Protection	How is the unit performing?	<i>To be defined following review of business processes and available datasets.</i>

User 3: Executive Dashboard (DG / HoD / Division Managers)

Global Filters: Date Range, Unit, Service / Regulatory Stream, Province, District

Dashboard Section	Management Question	KPIs / Visualizations
Executive Highlights	What are the key organizational highlights for the selected period?	Highlight Cards: • Service with Highest Number of Applications Received • Service with Highest Approval Rate • Service with Lowest Approval Rate • Unit with Highest Operational Workload <i>(based on applications/inspections during the selected period)</i>
Organizational Performance	How is RICA performing as an organization?	KPI Cards: Total Applications / Requests Received, Total Inspections Conducted, Total Approved, Total Rejected, Total Pending <i>(subject to confirmation)</i> Line Chart: Organizational Trend (Applications/Requests Received vs Approved over time)
Regulatory Coverage	What is the current scope of RICA's regulated sectors?	KPI Cards: Registered Seed Producers, Registered Agrochemical Dealers, Registered Butcheries, Registered Meat Carriers <i>(additional regulated sectors can be added as data becomes available)</i> Map: Distribution of Registered Entities across Rwanda <i>(filtered by service/category)</i>
Compliance	Are regulated entities complying with RICA standards?	Grouped Bar Chart: Approval vs Rejection by Service Line Chart: Approval Trend Over Time
Unit Performance	How are RICA's units performing relative to one another?	Summary Table: Unit, Applications/Requests, Inspections, Approval Rate, Average Processing Turnaround Time*
Director Dashboards	Where can management access more detailed information?	Navigation links/tabs to: • Farm Products & Processes Inspection Unit • Registration & Licensing Unit • Industries & Market Surveillance Unit • Import Inspection Unit • Competition & Consumer Protection Unit
